

**An earthquake strikes!**  
Intense shaking will last few minutes  
Keeping yourself safe should be your first priority

1

**Safety Actions**

Protect your head from falling objects. Stay away from: Large furniture and large laboratory equipment and glass objects that may shatter. Keep calm in case of a power outage.

2

**Evacuate to Safe area**

**Don't push Don't run Don't talk Don't go back**

When the shaking stops  
Stay Calm, support others, and accurately assess the situation.

- (1) Assess the situation in the room.
  - (2) If there is a fire, work together to start controlling it as long as you can stay safe.
  - (3) If anyone is injured, work together to provide first aid as long as you can stay safe.
  - (4) Shut off light and power/gas lines.
  - (5) Do not use elevators.
- If you are in an elevator, press every button and get off the elevator immediately after the door opens.

3

**Follow instructions of teachers and evacuate to Safety area. (See map)**

4

**Evacuee Safety Confirmation**

After reaching the evacuation area, please hand in the Evacuee confirmation card to the staffs of each building.

**Enter your personal information right now.**

**Register Now!**

Register your email address for emergency contact using the "Meidai Portal/Information Security Self-Inspection". You will receive important emails in case of disasters.

**Helpful information in an emergency**

**Confirm your safety:**

**Emergency message hotline: 171**  
Use a landline to leave a message confirming your safety  
**If your LINE message status is "read", your safety is confirmed.**

**Disaster info**

**Twitter**  
Collect disaster information tweets from the Meteorological Agency, fire department headquarters, the municipal government, and other officials.  
**Rajiru★Rajiru, radiko.jp**  
Smartphone app for online radio broadcasting

**Always carry an LED light, writing materials, portable battery charger, etc. in your bag.**

**Deciding whether to return home**

You may not be able to walk via your normal route due to collapsed buildings and crumbled roads. If necessary, you may have to make the decision not to go home if you live more than 10 km away.

**Going home**

- Do you know the distance between the university and your home?
- Do you wear shoes safe enough to walk roads scattered with wreckage and glass?

**Deciding not to go home**

Another option is to stay in a safe place instead of immediately going home.

**If you are off campus and it is difficult to go home**

If you don't know where to go, try to come to campus.

**Carry At All Times**

**What to do in a major earthquake!**

Foresee the disaster and prepare now  
2015 version

**When an emergency earthquake warning is issued**

You have between several seconds and a few dozen seconds before the strong quake strikes.

**DO NOT START RUNNING. DO NOT PANIC.**  
Calm down and look for a safe place.

**When an emergency earthquake warning is issued on campus**

**Do not panic. Protect yourself**

Almost all Nagoya University buildings are earthquake resistant and are in no danger of collapsing.

**Calm down. Follow instructions of teacher to evacuate.**

Nagoya University has a volunteer fire team for each block of campus.

**As soon as you are safe, report your status to others.**

If you are prepared, you will be able to communicate calmly.

**Go home once you get accurate information on the situation.**

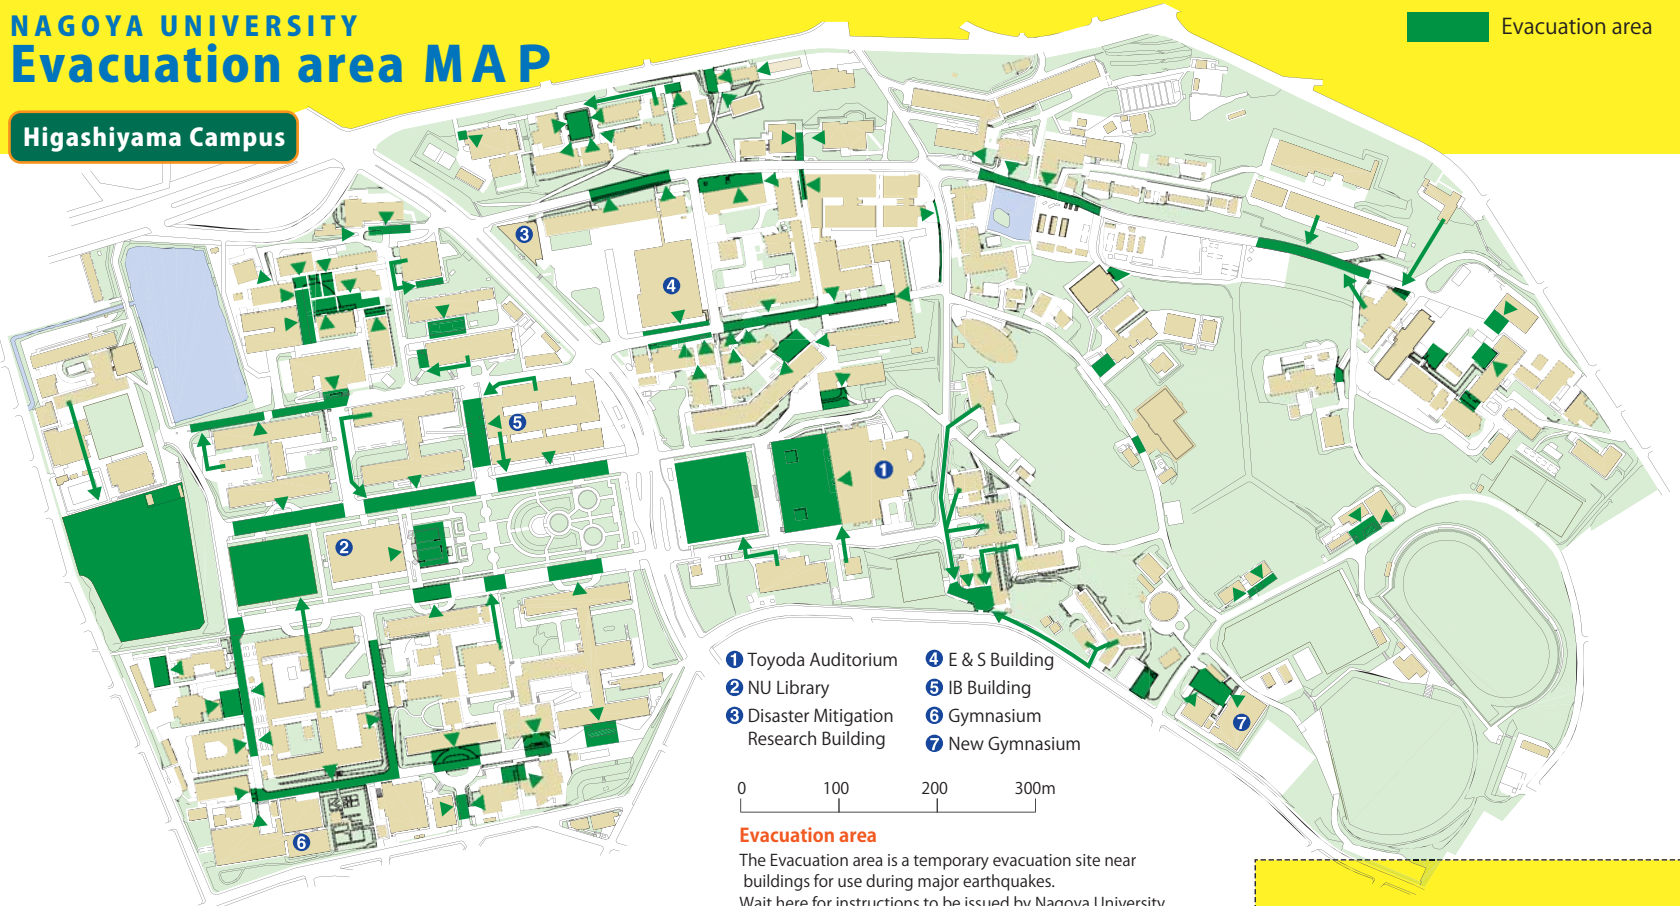

Nagoya University will help those who have trouble going home. Assess the situation and come to the university if you think you will not be able to get home.

Disaster Management Office Nagoya University  
<http://www.seis.nagoya-u.ac.jp/taisaku/>

This manual is prepared based on an earthquake with an intensity of/or higher than 6-lower. The information is presented with students in mind, but it is also useful for faculty.

**NAGOYA UNIVERSITY Evacuation area MAP**

**Higashiyama Campus**

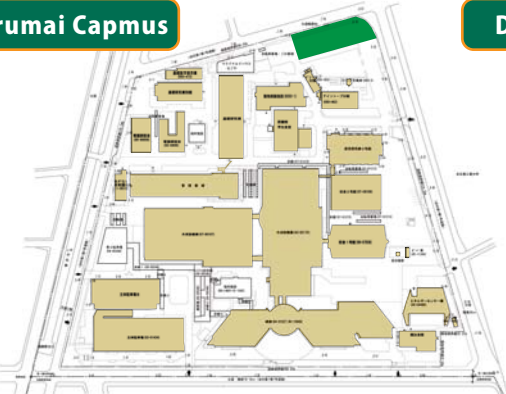

- 1 Toyoda Auditorium
- 2 NU Library
- 3 Disaster Mitigation Research Building
- 4 E & S Building
- 5 IB Building
- 6 Gymnasium
- 7 New Gymnasium

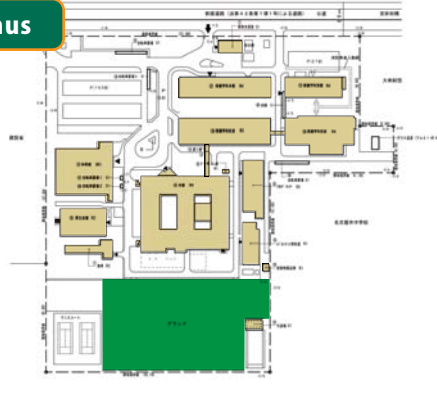

**Evacuation area**

The Evacuation area is a temporary evacuation site near buildings for use during major earthquakes. Wait here for instructions to be issued by Nagoya University.

**Tsurumai Campus**

**Daiko Campus**

**Evacuee Safety Confirmation**

This card is used to record your safe evacuation to the evacuation area should a major earthquake occur.

**Hand it to the staff at the evacuation area**
